CALIFORNIA
CONSTRUCTION
INTERNATIONAL

California Construction International is a company dedicated to success and diligence. Our expertise covers all aspects of a construction project, big and small. We honor our customers and pride ourselves in the quality of work we deliver. We look forward to working with new international clients in our endeavor to grow our business in the world stage.

CCI Team

California Construction International (CCI) has hand picked a team of leaders in each of the major fields of construction. The majority of our leaders have 30+ years of experience in the fields of Planning/Design, General Construction, General Engineering, Plumbing, Electrical, Concrete, Asphalt/Paving, Landscape, Underground Work and Construction Equipment. We have worked in both the private & public sector. Our experience includes highways, city streets, shopping malls, public schools, medical buildings, large commercial projects and many more. CCI stands ready and willing to accept all challenges. We work hard and are dedicated to success.

Our Values

Our Brand is Our Most Precious Asset

Our team has earned a reputation of producing high quality results with honesty and integrity. Through our actions we have earned the trust of major corporations and government entities. We understand that satisfied customers are our best advertisement. Therefore, we will never over promise and will always over deliver.

Understand Client's Need and Vision

We have learned that great things happen when we listen. We work diligently to understand our client's needs and share in their vision. Success in this ever changing environment requires stout management and not only a willingness, but a desire to be flexible in order to meet the needs of the client. As a result, our client's vision for a project will always be a top priority.

Honesty and Integrity is the Key to Long-term Success

Our commitment to high ethical standards has allowed us to build long-term relationships with our clients and colleagues. Honesty and integrity are the cornerstones to our business. We will never enter into a Win-Lose business relationship. The key to our long-term success will always be a Win-Win outcome.

Experience+Integrity+State of the Art Technology= Outstanding Results

Choosing different construction companies for different projects can be time consuming and expensive. California Construction International (CCI) combines many different divisions of construction under one company. This means our clients will save time, energy, and money by dealing with one highly experienced construction company. At CCI, we understand that experience is not enough. Listening to our clients needs and providing honest answers has been a proven business strategy to accomplish outstanding results. Experience and integrity are important. However, few companies are willing to stay on the cutting edge of technology in the construction business. CCI is proud to be one of those few companies that uses all of these components to help produce outstanding results for our clients.
